

Scholarity

A New Era Of Education Software

Scholarity's education software aims to consolidate as well as automate all school activities and processes into one powerful dashboard; promoting efficiency and sustainable practices. Its digitized solutions as well as artificial intelligence features gives schools a unique edge in the market as it enhances the experience for all its stakeholders including the school's administration, parents, teachers and students alike.

We understand that the education sector is constantly evolving; that's why Scholarity is here to provide you with innovative solutions to help you keep up with the trends in technology and to better engage your students throughout their K-12 schooling years.

Not only do you get more insights into your business through Scholarity; our solutions also aim to facilitate and solve your School's challenges as well as engage your students using technology.

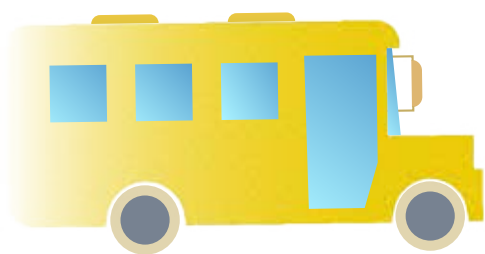

1

Bus Tracking (Parents)

Waiting for the bus in the streets is a thing of the past!

Parents get real time notifications 10 minutes before the bus picks up the child and another one before he/she is dropped off.

Parents are also now able to track their child's location throughout their school bus journey.

1

Bus Tracking

(Administration)

Bus routes can now be tracked in real time by the School through their dashboard.

The speed and location of the buses can be monitored at any point of time.

Bus drivers who over-speed can be identified including the exact areas where they exceeded the speed limit.

Bus X exceeded the allowed speed limit

2

Integrated Accounting System

School payments are now made easy for all parties!

Parents can easily view their Installments and conveniently pay them through their schoolarity app.

Payments are then processed automatically by the bank for approval, once approved payments are instantly reflected as paid on the School's accounting system.

3

Instant Messaging

Administration, accountants, teachers and parents can all instantly communicate with each other in a controlled environment.

All communication made through this feature can be easily monitored and retrieved at any time by the School's administration.

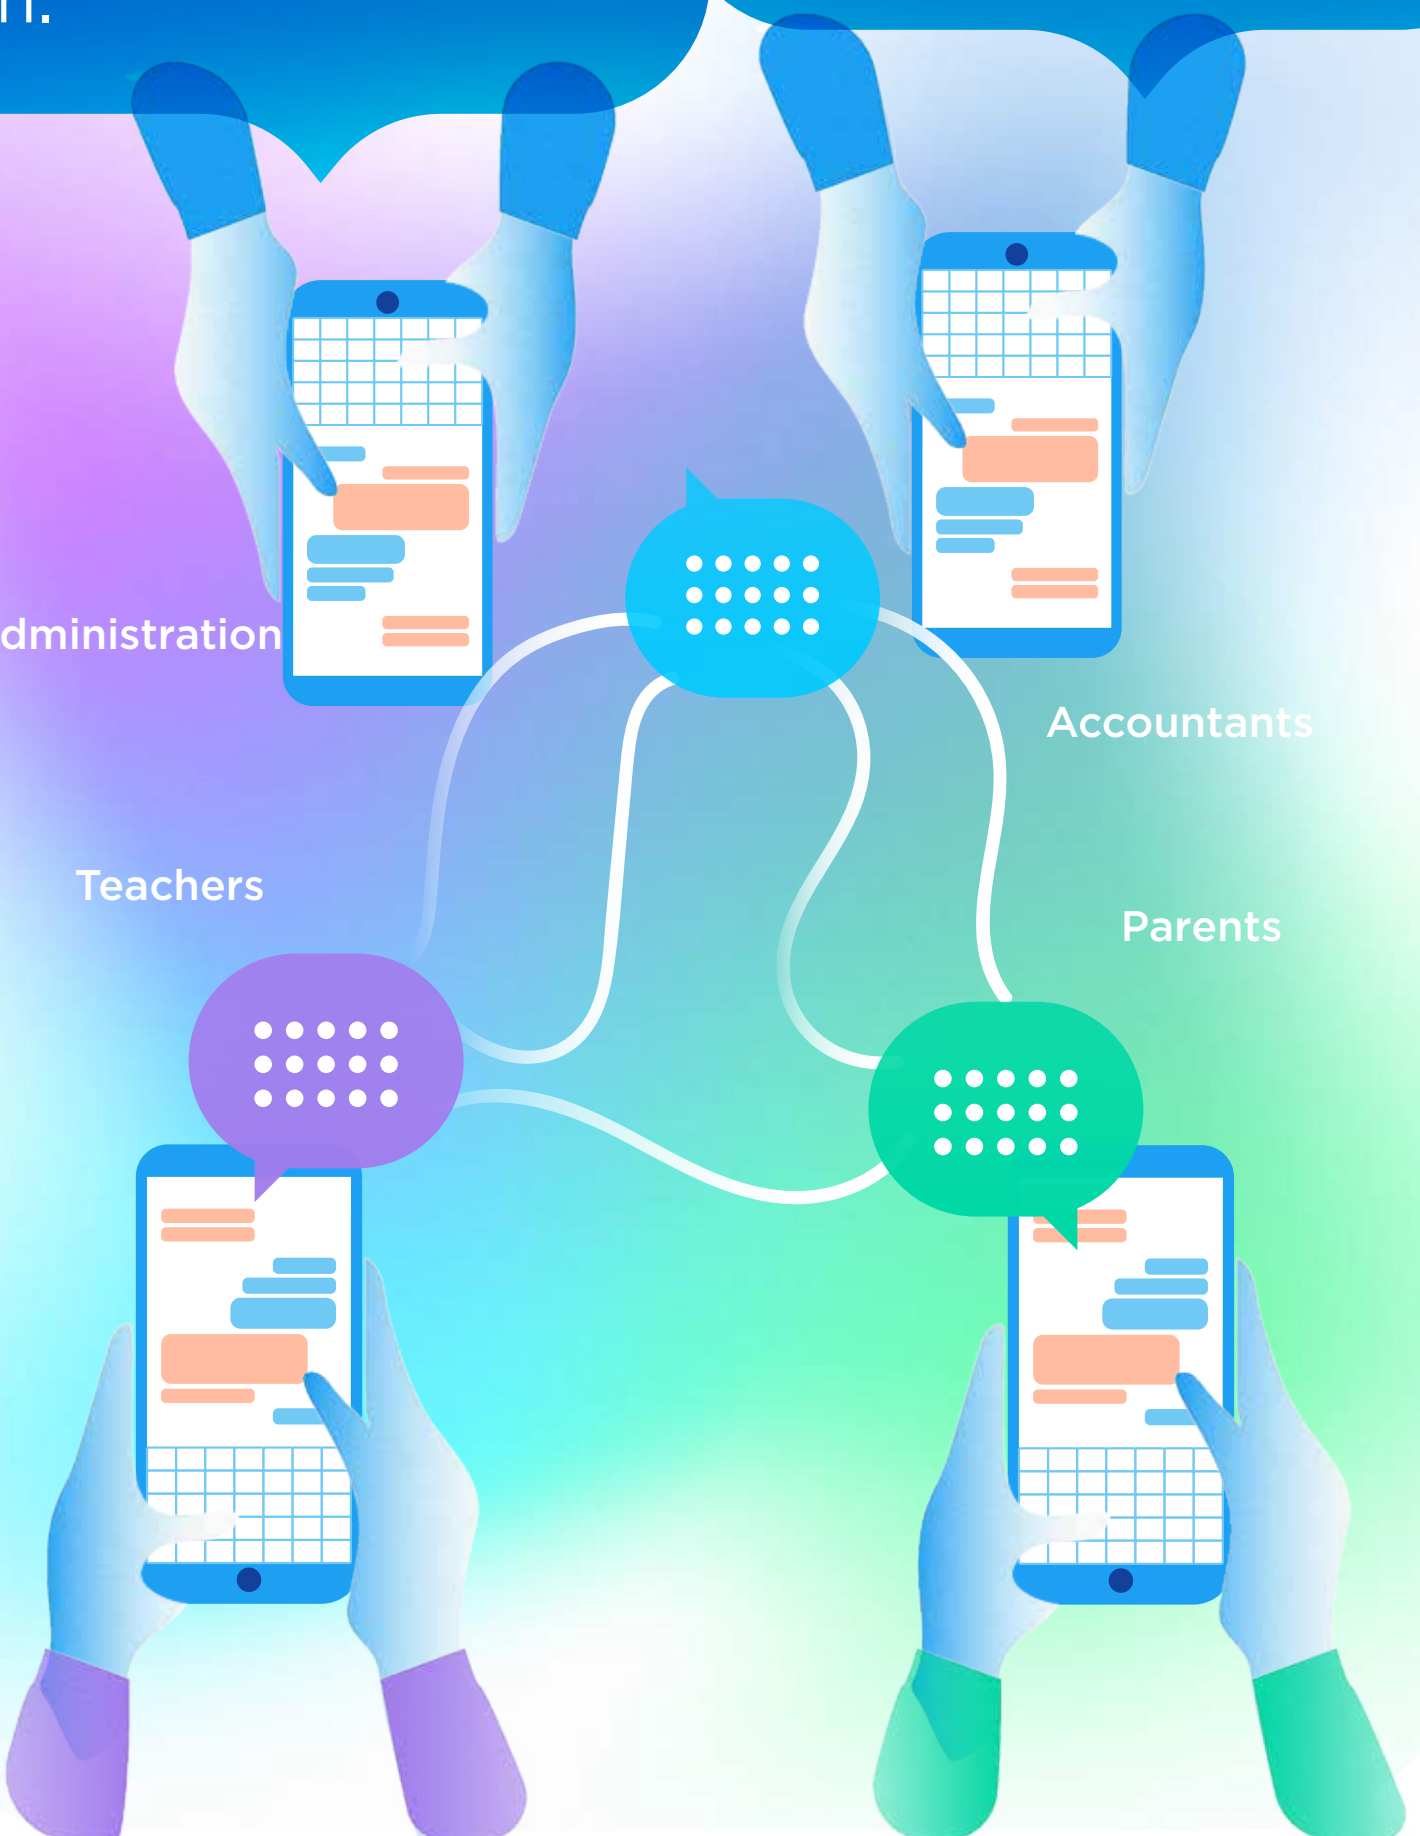

This feature can also be tailored, disabled or enabled by the school.

4

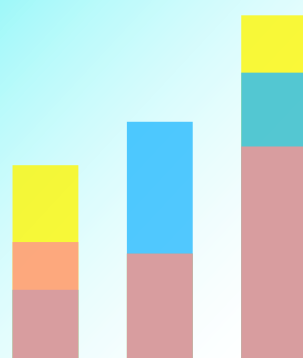

Interactive Learning

Scholarity allows schools to use digital technology to help students become more engaged and retain more material.

Teachers have an easy format to insert questions and their model answers , which in succession allows students to take assessments through their mobile app.

Scores are automatically populated and offered to students upon completion.

%

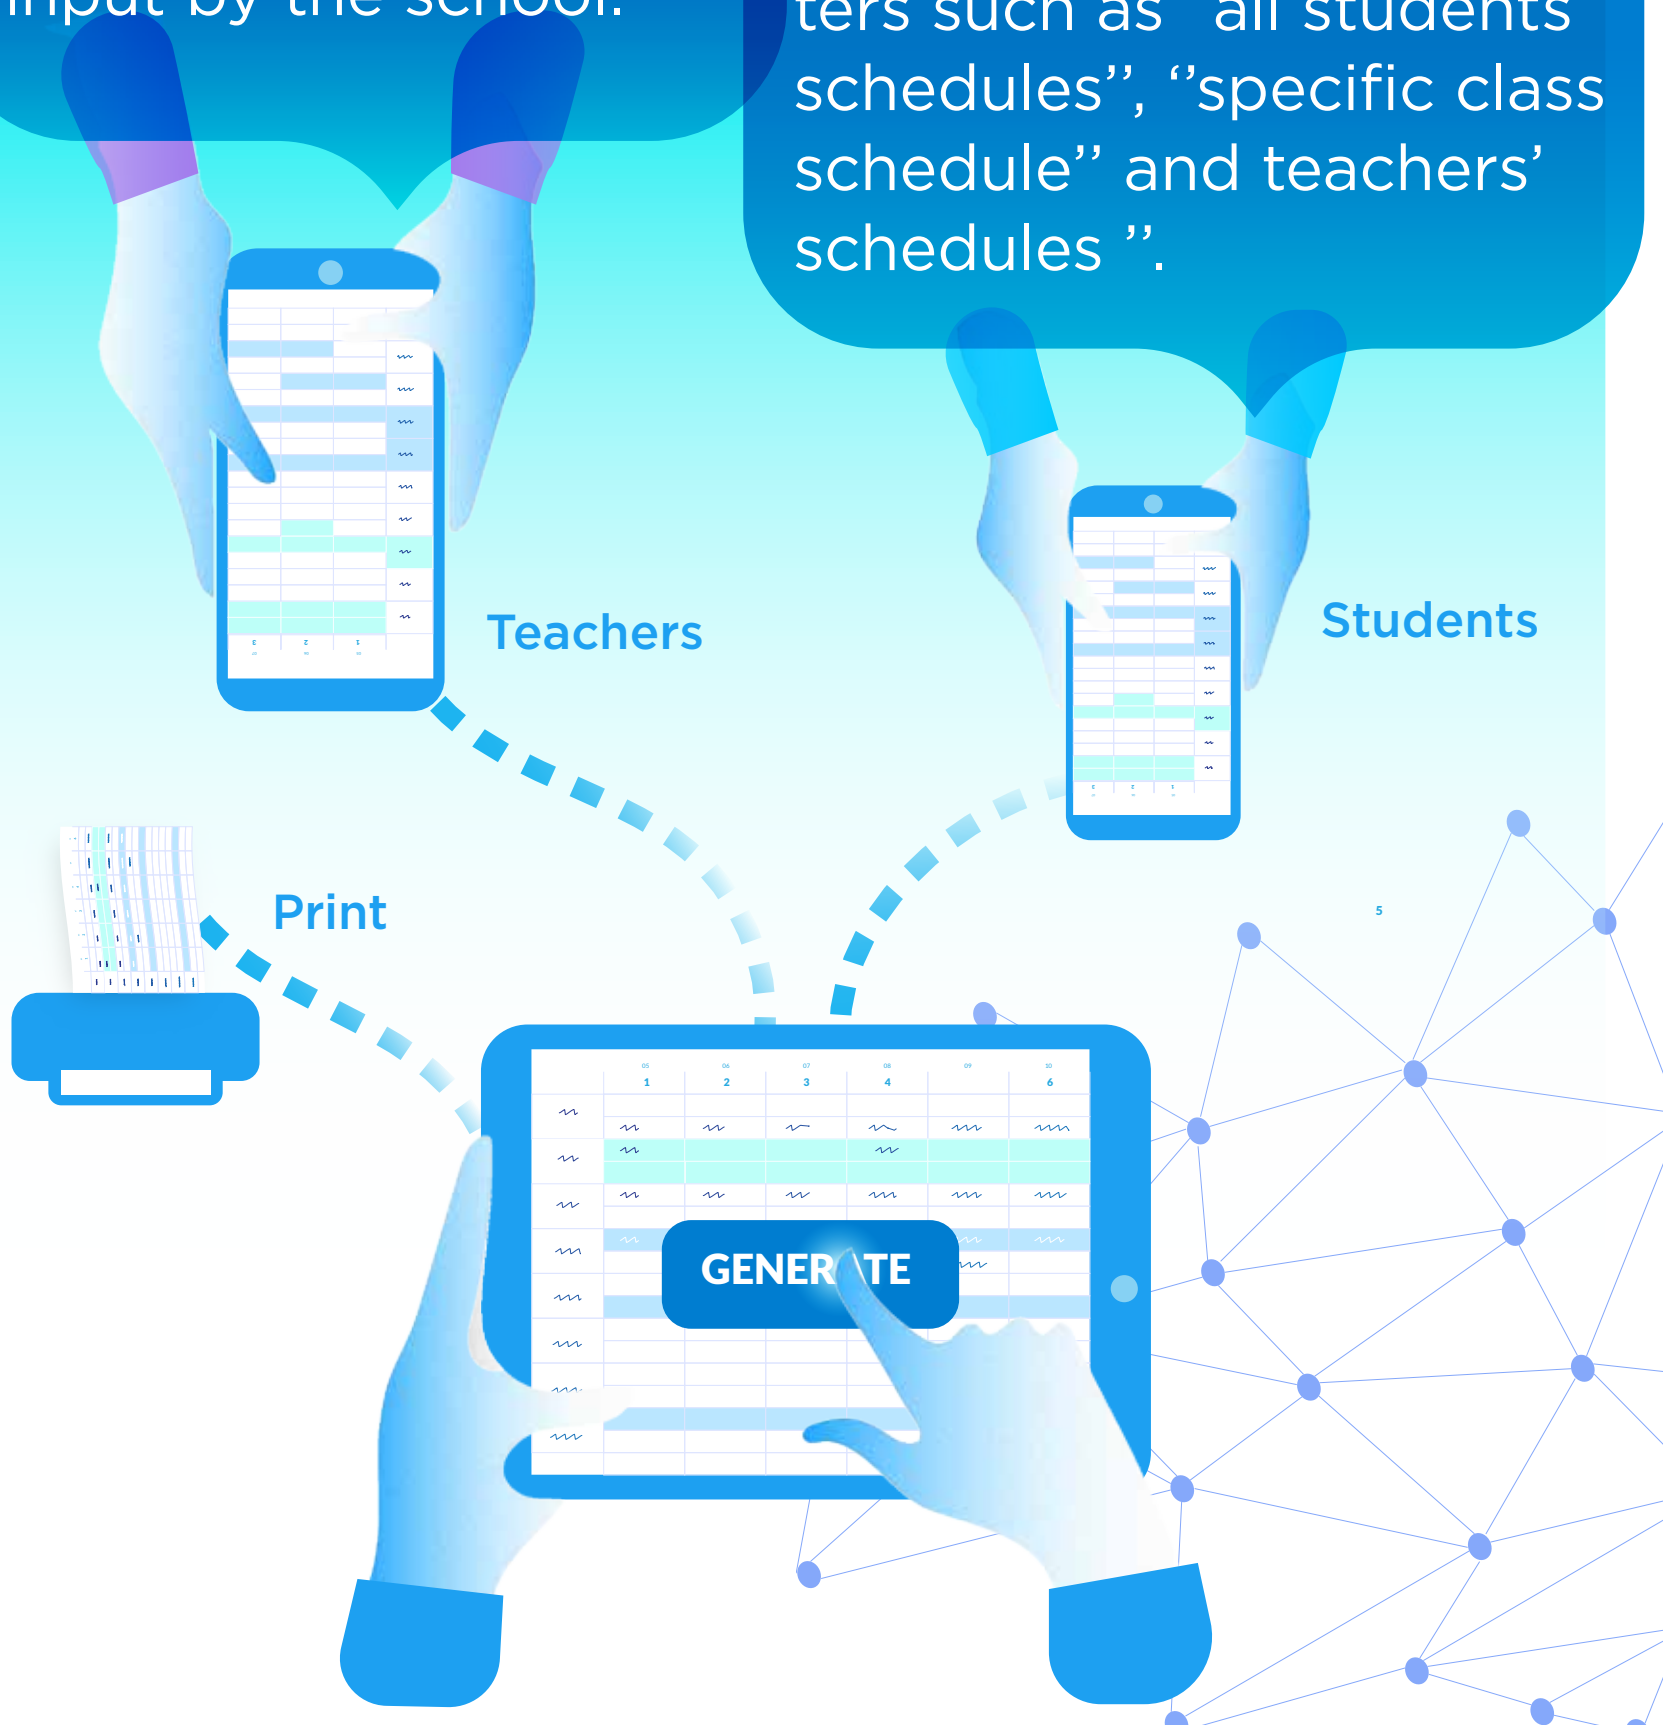

5

Scheduling

Using artificial intelligence ideal class schedules for the whole school can be generated in just a few clicks.

To generate the schedules, Scholarity will consider several dimensions such as ideal sequences of subjects, staffing hours and other different constraints that have been input by the school.

Schools can generate automatically as many different schedules as required throughout the year to match their current operations. The feature also allows for different printing and viewing modes according to selected filters such as “all students’ schedules”, “specific class schedule” and teachers’ schedules ”.

6

Reviewing

Evaluate and gain insights on how your teachers are performing through student reviews.

Scholarity facilitates this process for students on their designated mobile app and at the same time gives the school powerful aggregate results .

Timings, formats and parameters of reviews can all be easily tailored by the school.

7

Reports & Analytics

Gain better insight into your business using Scholarity's reports & analytics!

From aggregate attendance records to financial reports; Scholarity provides you with tailored reports & analytics that help you with your strategic objectives.

Students App

Through their esignated app students can now keep track of their performance, discuss their assignments with peers, take practice tests to measure their understanding and much more.

1

Class Schedules

They receive their exam results in real time once posted.

2

Attendance

They can keep track of their attendance records.

3

Exam Results

They receive their exam results in real time once posted.

4

Media Galleries

Students can view all images and videos of themselves captured during various activities, events & field trips that have been uploaded to schoolarity.

5

Interactive Learning

Students can take quizzes and practice tests to measure their understanding of a given subject. Scores are automatically populated and offered to students upon completion.

6

Assignments & Homework

Through the app students can retrieve, view as well as discuss their assigned homeworks with their peers and clear any misconceptions with their teachers.

7

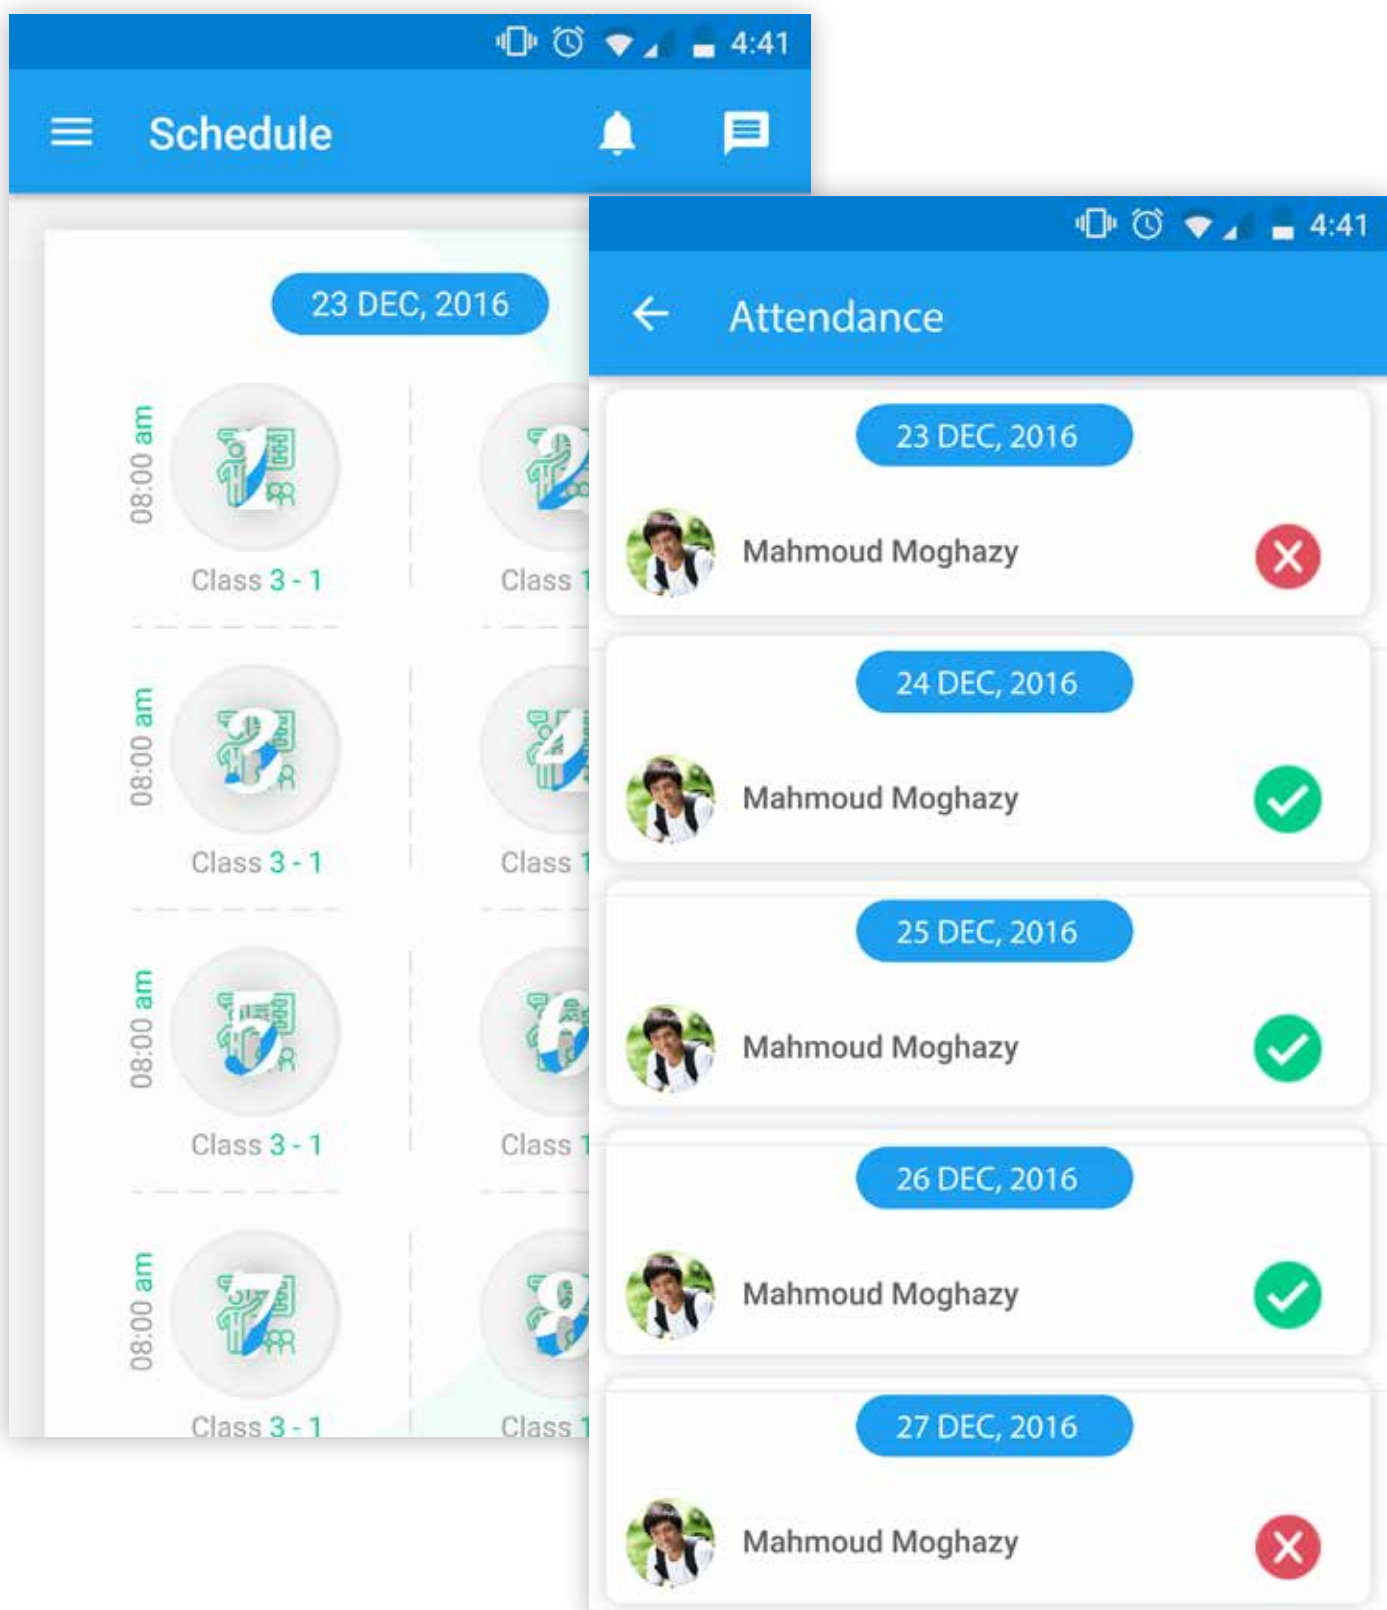

Teacher Performance Evaluation

They have the opportunity to evaluate their teachers anonymously to help identify staff strengths and areas of improvement.

8

Events & Activities

They can access details of all events, field trips and activities happening at the school that may be of interest to them.

Parents App

Through their designated app parents have access to a multitude of features and are able to oversee the performance of their children on the go.

1

Exam Results

They receive real time exam results once posted.

2

Attendance Records

Child's attendance records can be viewed and prompt notification is sent to parents in case of absenteeism.

3

Instant Messaging

They can instantly chat with the school's administration, accountants and teachers if enabled by the school.

4

Bus Tracking

They can track their child's location throughout their school bus journey and receive notifications 10 minutes before the bus picks up the child and another one before he/she is dropped off.

5

Media Galleries

Parents can receive instant images and videos of their children during various activities (shareable on Social Media).

6

Correspondence

All official school Correspondence can be received and viewed through the app.

7

Events & Activities

They now have access to all events, field trips and activities happening at the school with their full details.

8

Accounting

For a hassle free experience, they can pay their installments and view their upcoming ones through the app.

9

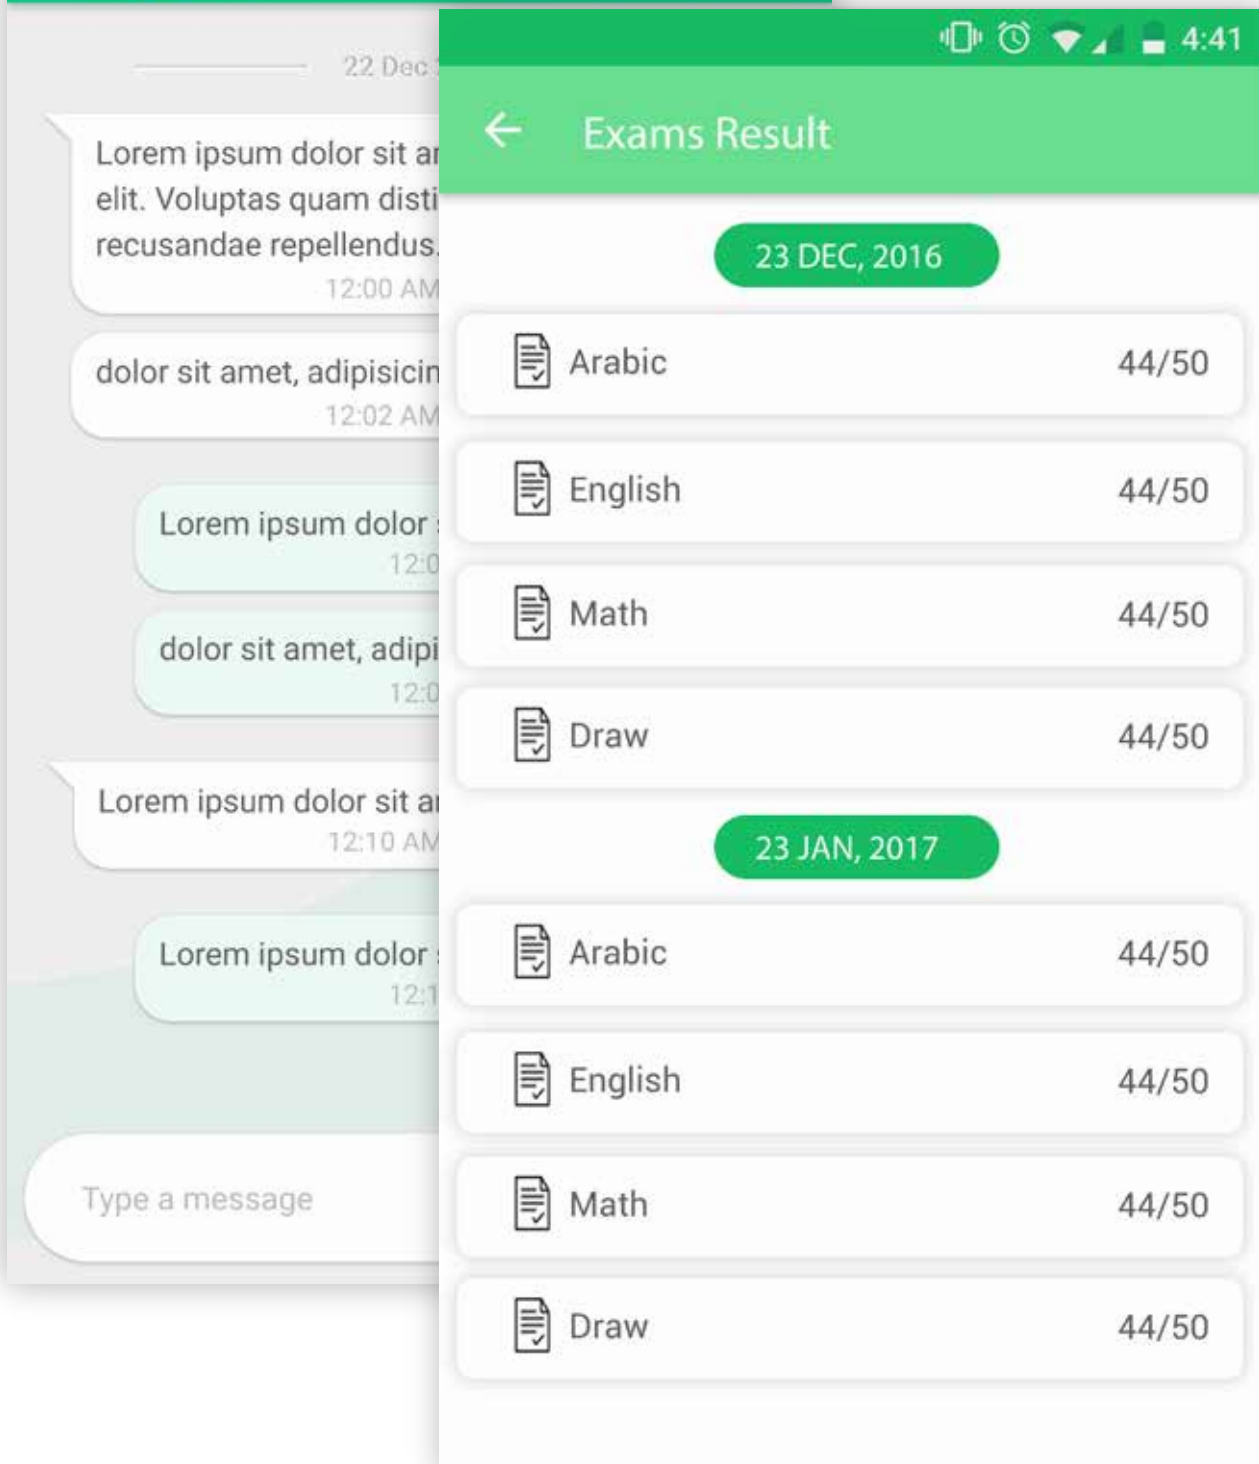

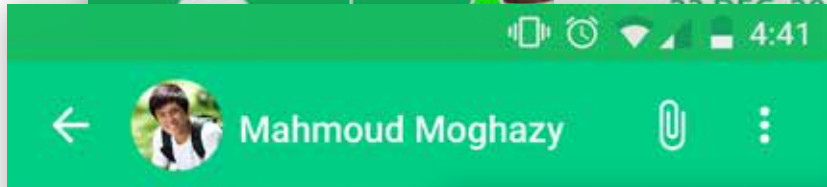

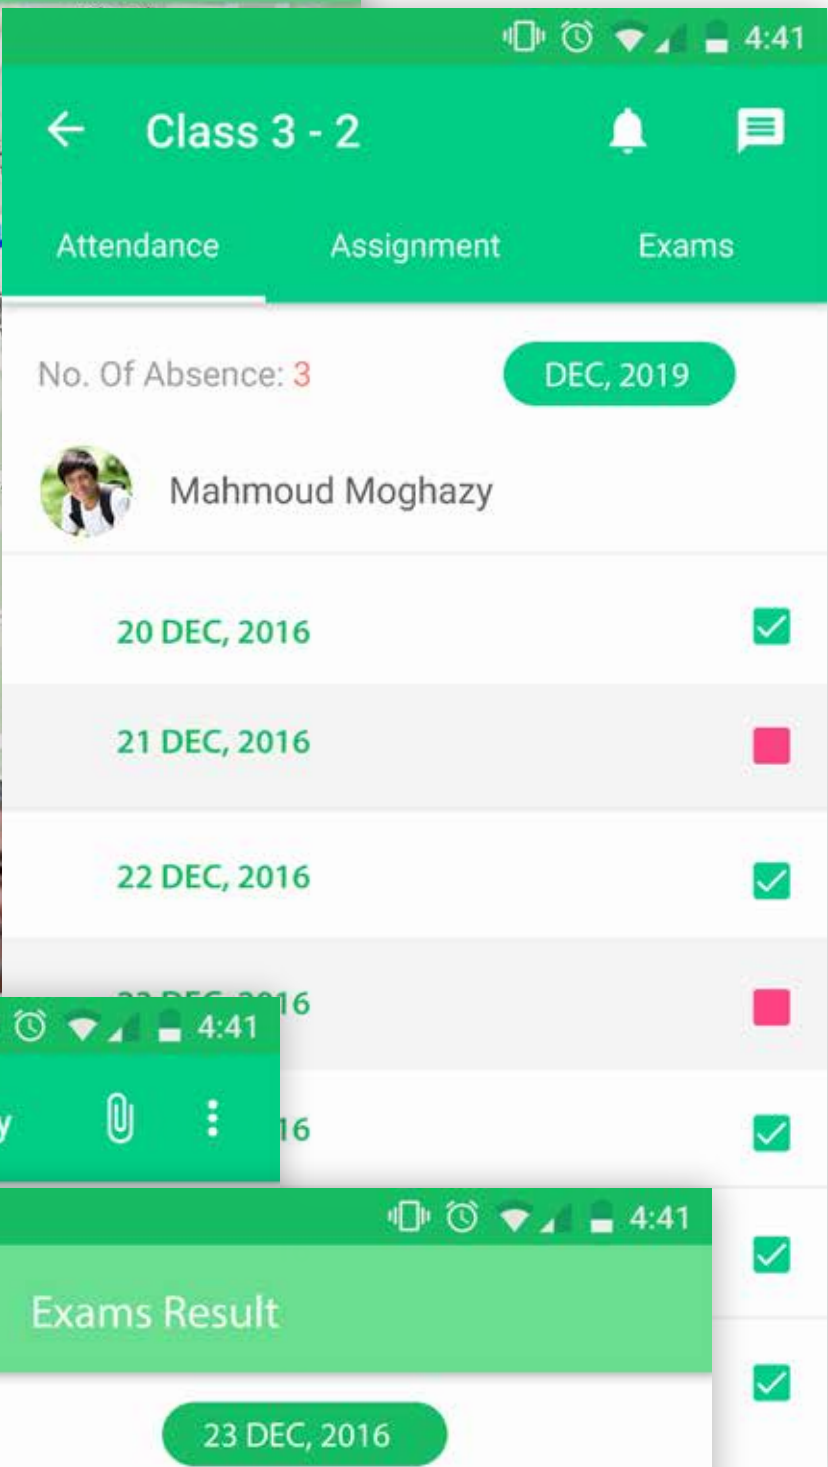

Assignments & Homework

They can check and keep track of all assignments & homework due in a very simple format.

10

Class Schedules

Parents can be aware of their child's daily class schedule which will allow them to better engage with their child; starting from preparing for their school day to reflecting on the subjects they took at the end of the day.

Teachers App

Through their designated app teachers are able to communicate with all parties with more ease, engage better with their students as well as perform their usual tasks more efficiently.

1

Attendance

The app gives teachers an easy way to record attendance online for all classes by just toggling right on the student's name who is absent.

2

Practice & Training Tests

They can generate question banks, timed quizzes and assignments in order to measure their students' level of understanding prior to exams.

3

Exam Results

Teachers can upload results on the app and all concerned parties will be notified in real time.

4

Class Schedules

They can easily view their daily or weekly schedules.

5

Assignments & Homework

Through the app teachers can upload and discuss the assigned homeworks with their students as well as clarify any misconceptions.

6

Events & Activities

They have access to all events, field trips and activities happening at the school with their full details.

7

Instant Messaging

They can instantly chat with the school's administration and parents if enabled by the school.

8

correspondence

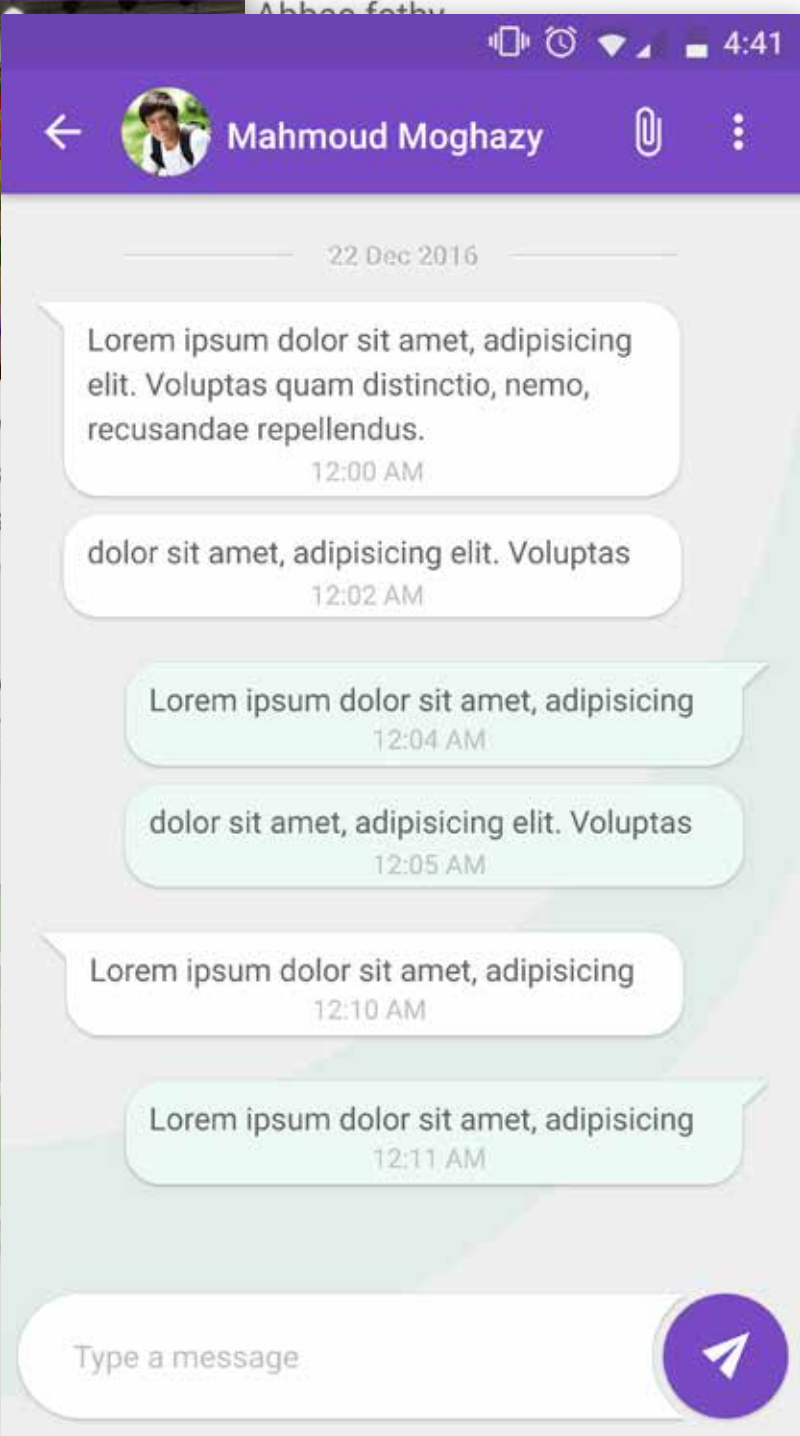

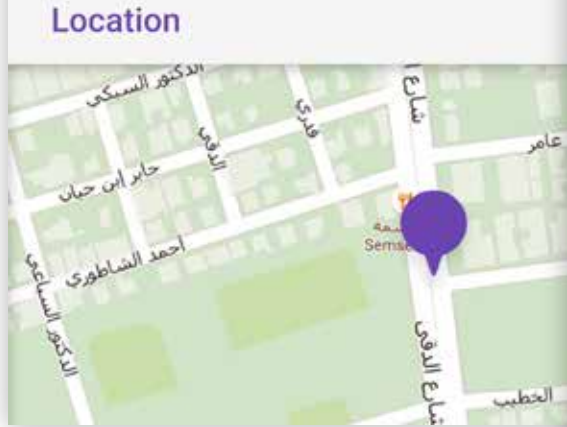

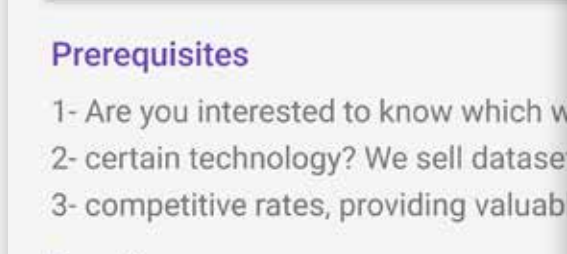

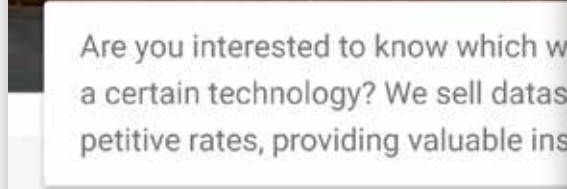

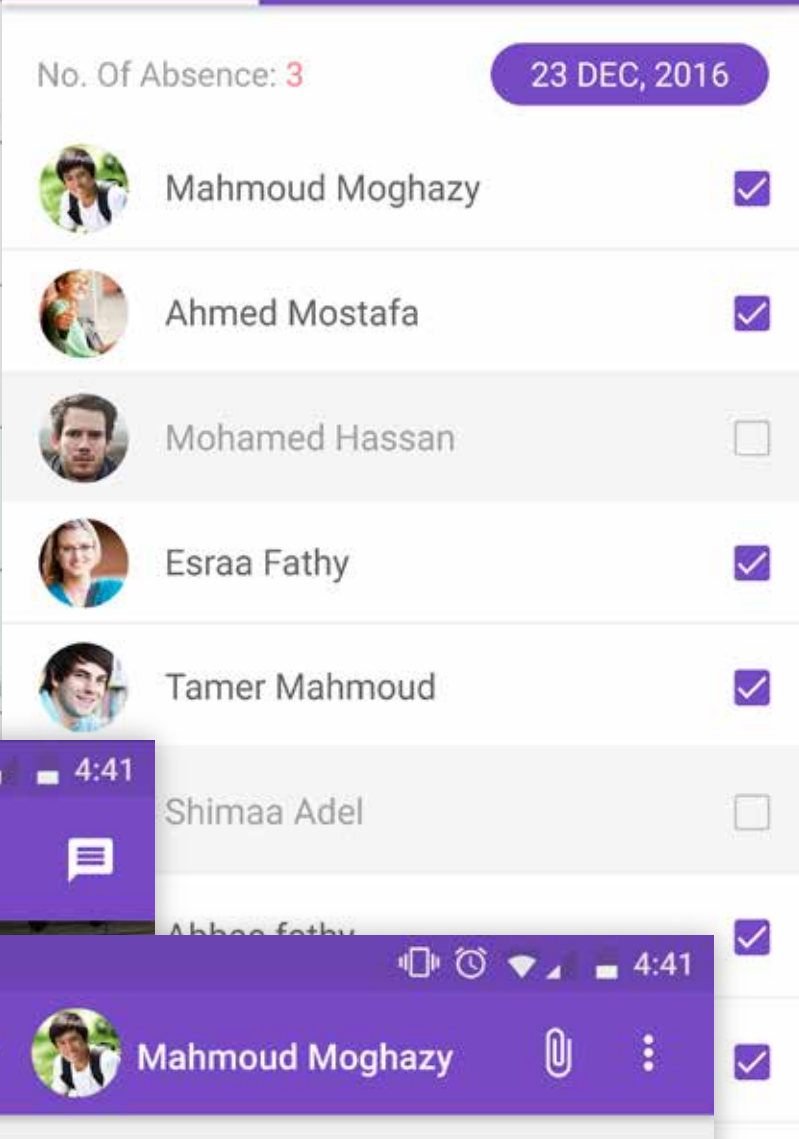

They have access to create and receive official correspondence

9

Media Galleries

They can upload images and videos to schoolarity that they have captured of their students during various activities, events & field trips. This media can then be viewed by students and parents.

Preschool Apps

Teachers
Preschool
App

Parents Preschool App

Parents who have children in Nursery, Day-care or Preschool have access to all the features included in Schoolarity's "Parents App" plus additional unique tailored features.

1

Daily Reports

They get a comprehensive overview of their child's day to day activities through images, videos as well as daily reports on their nutrition, learning experiences, mood & behavior.

2

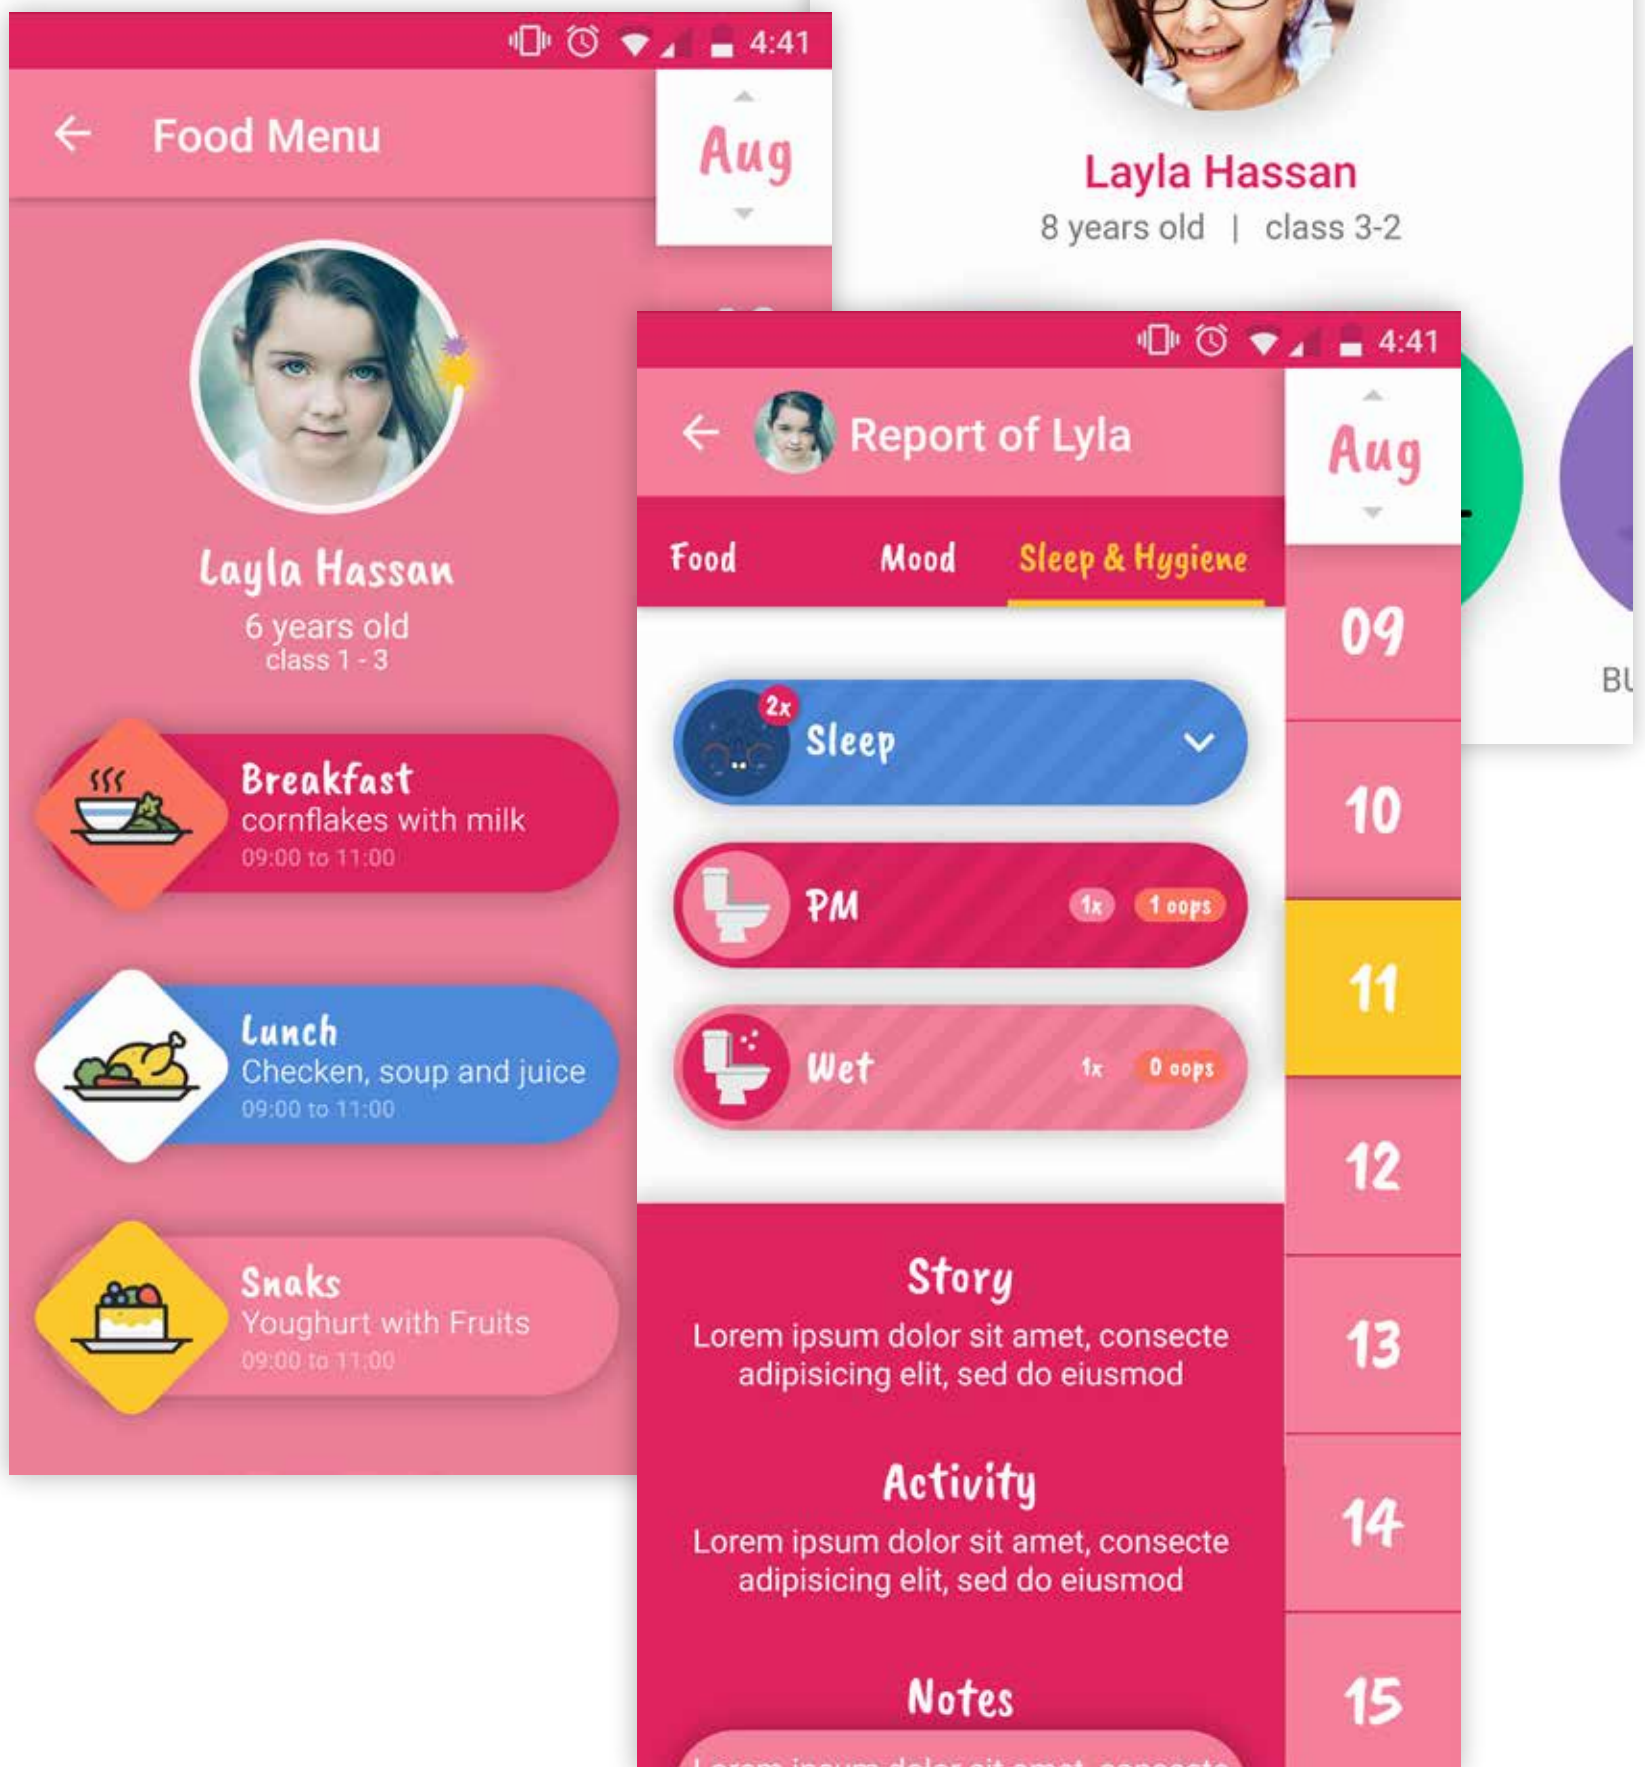

Food Menus

Parents can keep track of their child's health & nutrition through daily updates on what they have eaten and what they are going to eat the next day.

3

Notification System

A very responsive notification system is included to keep parents always up to date and on the go.

Teachers Preschool App

Teachers and employees who oversee children in Nursery, Daycare or Preschool have access to all the features included in Scholarity's "Teachers App" plus additional unique tailored features.

1

Daily Reports

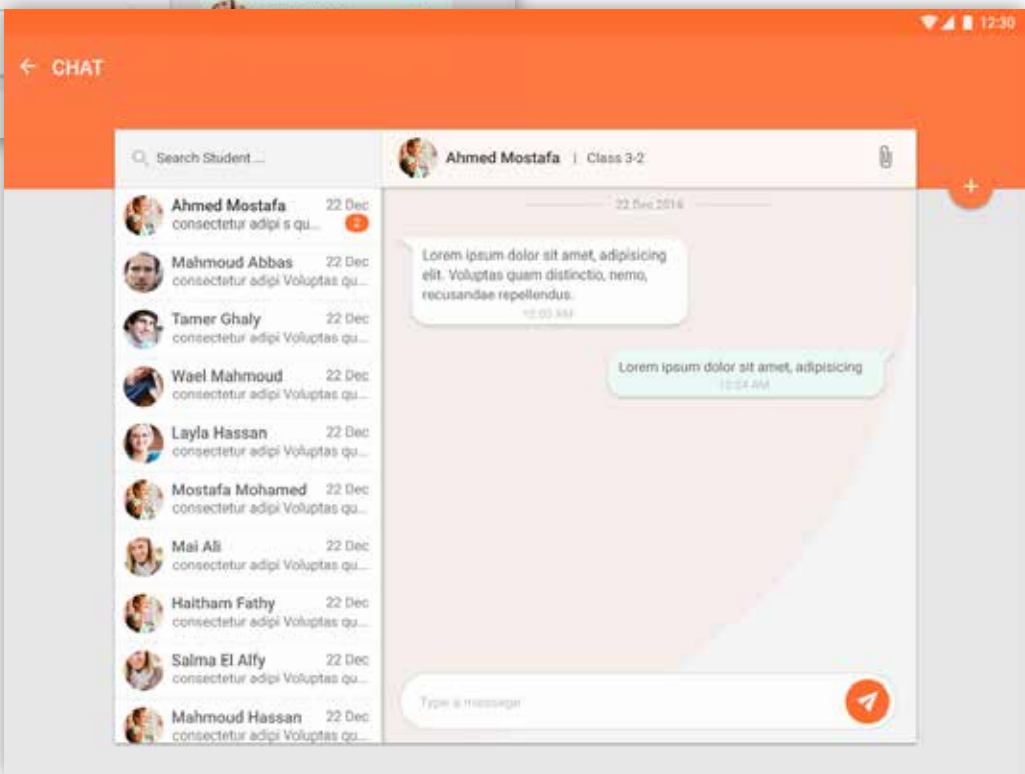

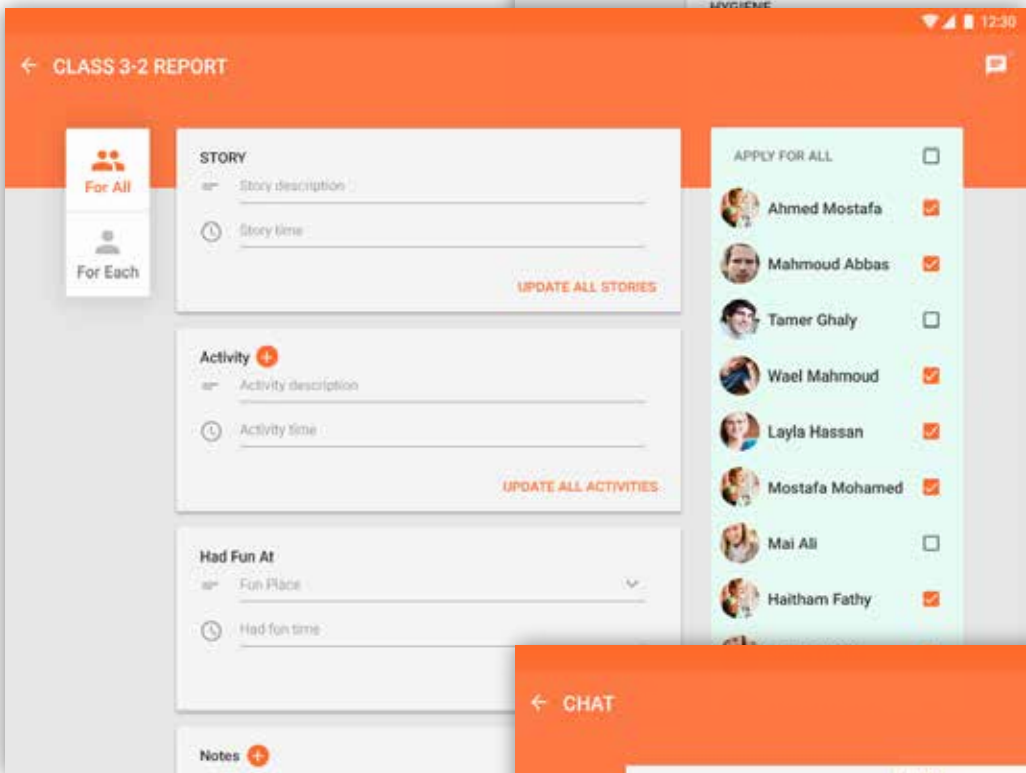

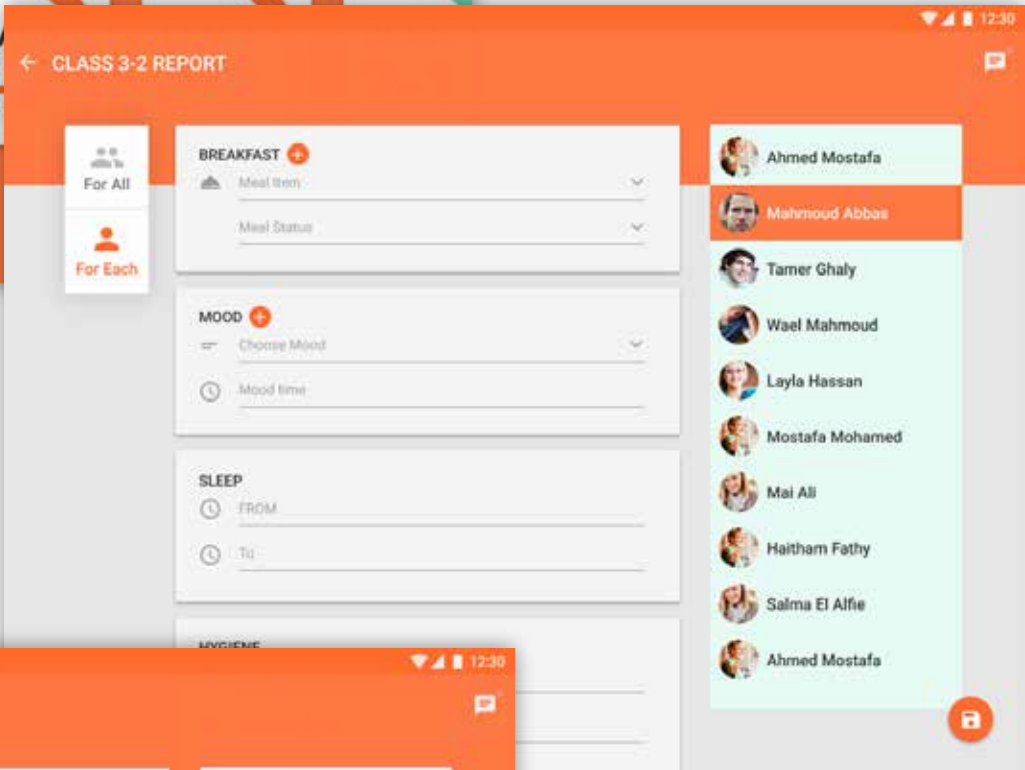

Schoolarity has upgraded from the old "paper daily sheets" to electronic daily sheets.

With this feature, teachers are able to electronically and securely transfer valuable information to parents including daily reports, notifications, alerts, reminders, schedules, assessments, observations as well as special moments in the form of pictures & videos straight to parents' smartphones.

2

Schoolarity Access

Teachers can access their app on the go where they can enter their students' daily reports using custom templates. Schoolarity makes it easy for teachers to electronically insert shared daily activities of his/her classroom and at the same time insert their students' individual details separately.

Preschoolers App

Inspire children to learn! The best way to make toddlers and preschoolers recognize that learning is an enjoyable activity is to make the process fun.

1

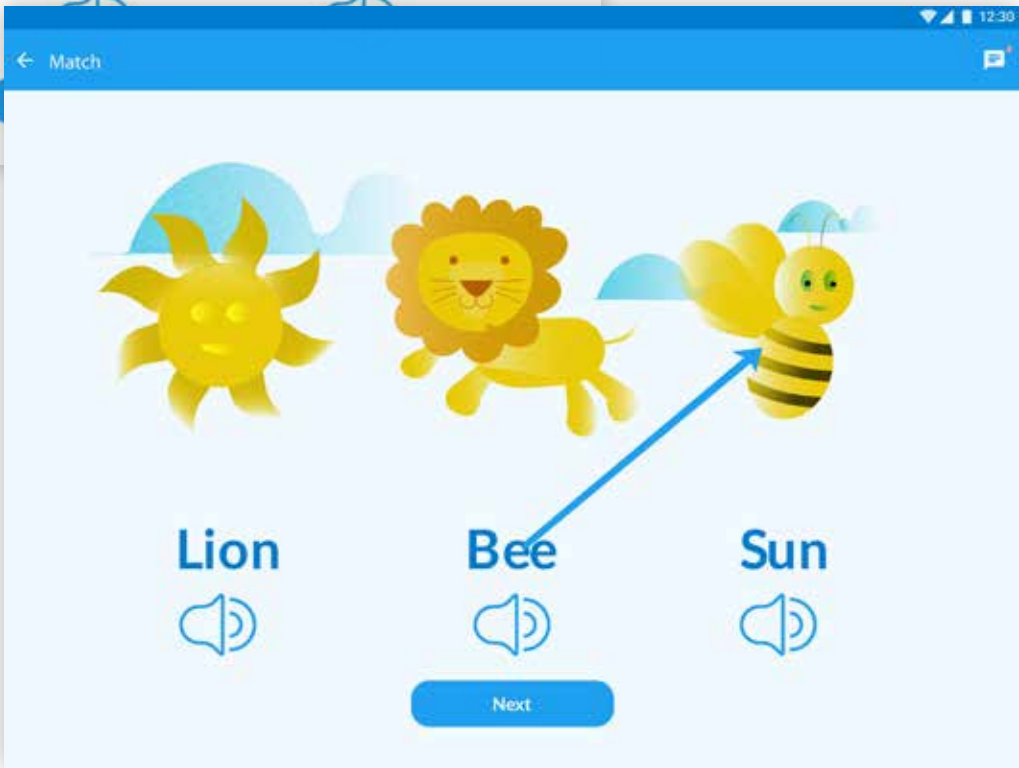

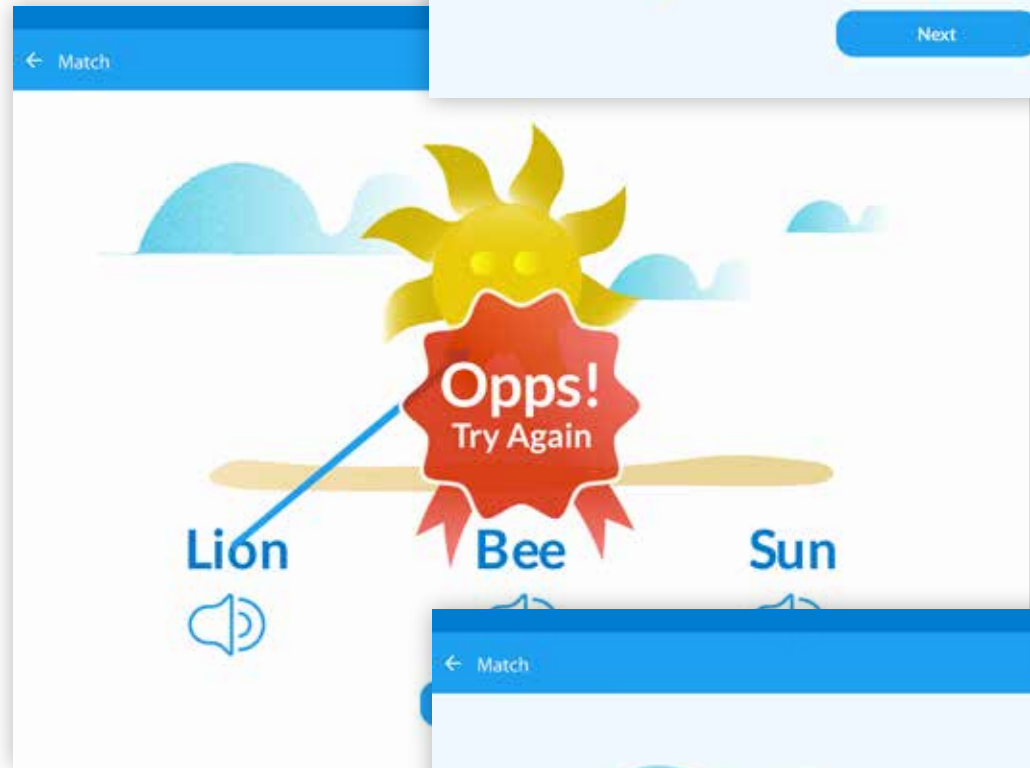

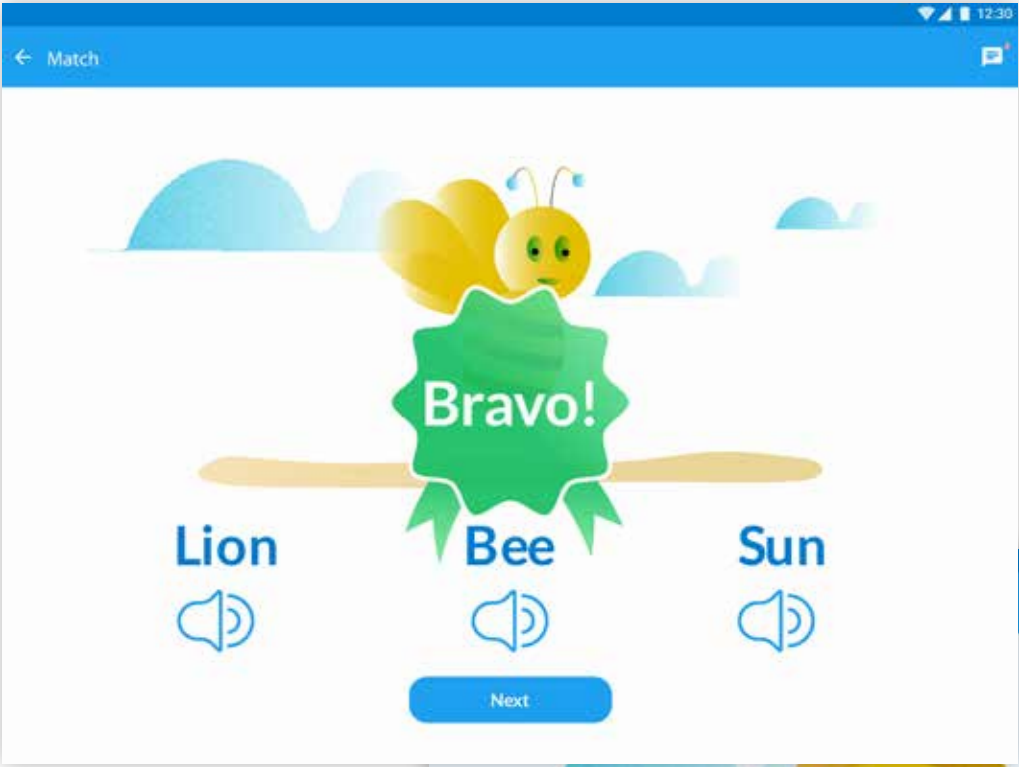

Create Fun Educational Activities

Scholarity allows for teachers and employees who oversee children in nursery, day-care and preschool to create or tailor fun educational activities that their students can then access through their designated app.

2

Animation & Awards

The activities that have been input by teachers are then translated into an enhanced experience for the children; with sound effects and animation including awards to keep them motivated.

Bus Matrons App

Through their designated app, Bus Matrons with the simplest steps can initiate Scholacity's real time bus tracking feature.

1

**Start / End
Live Tracking**

Initiated with a click of a button.

2

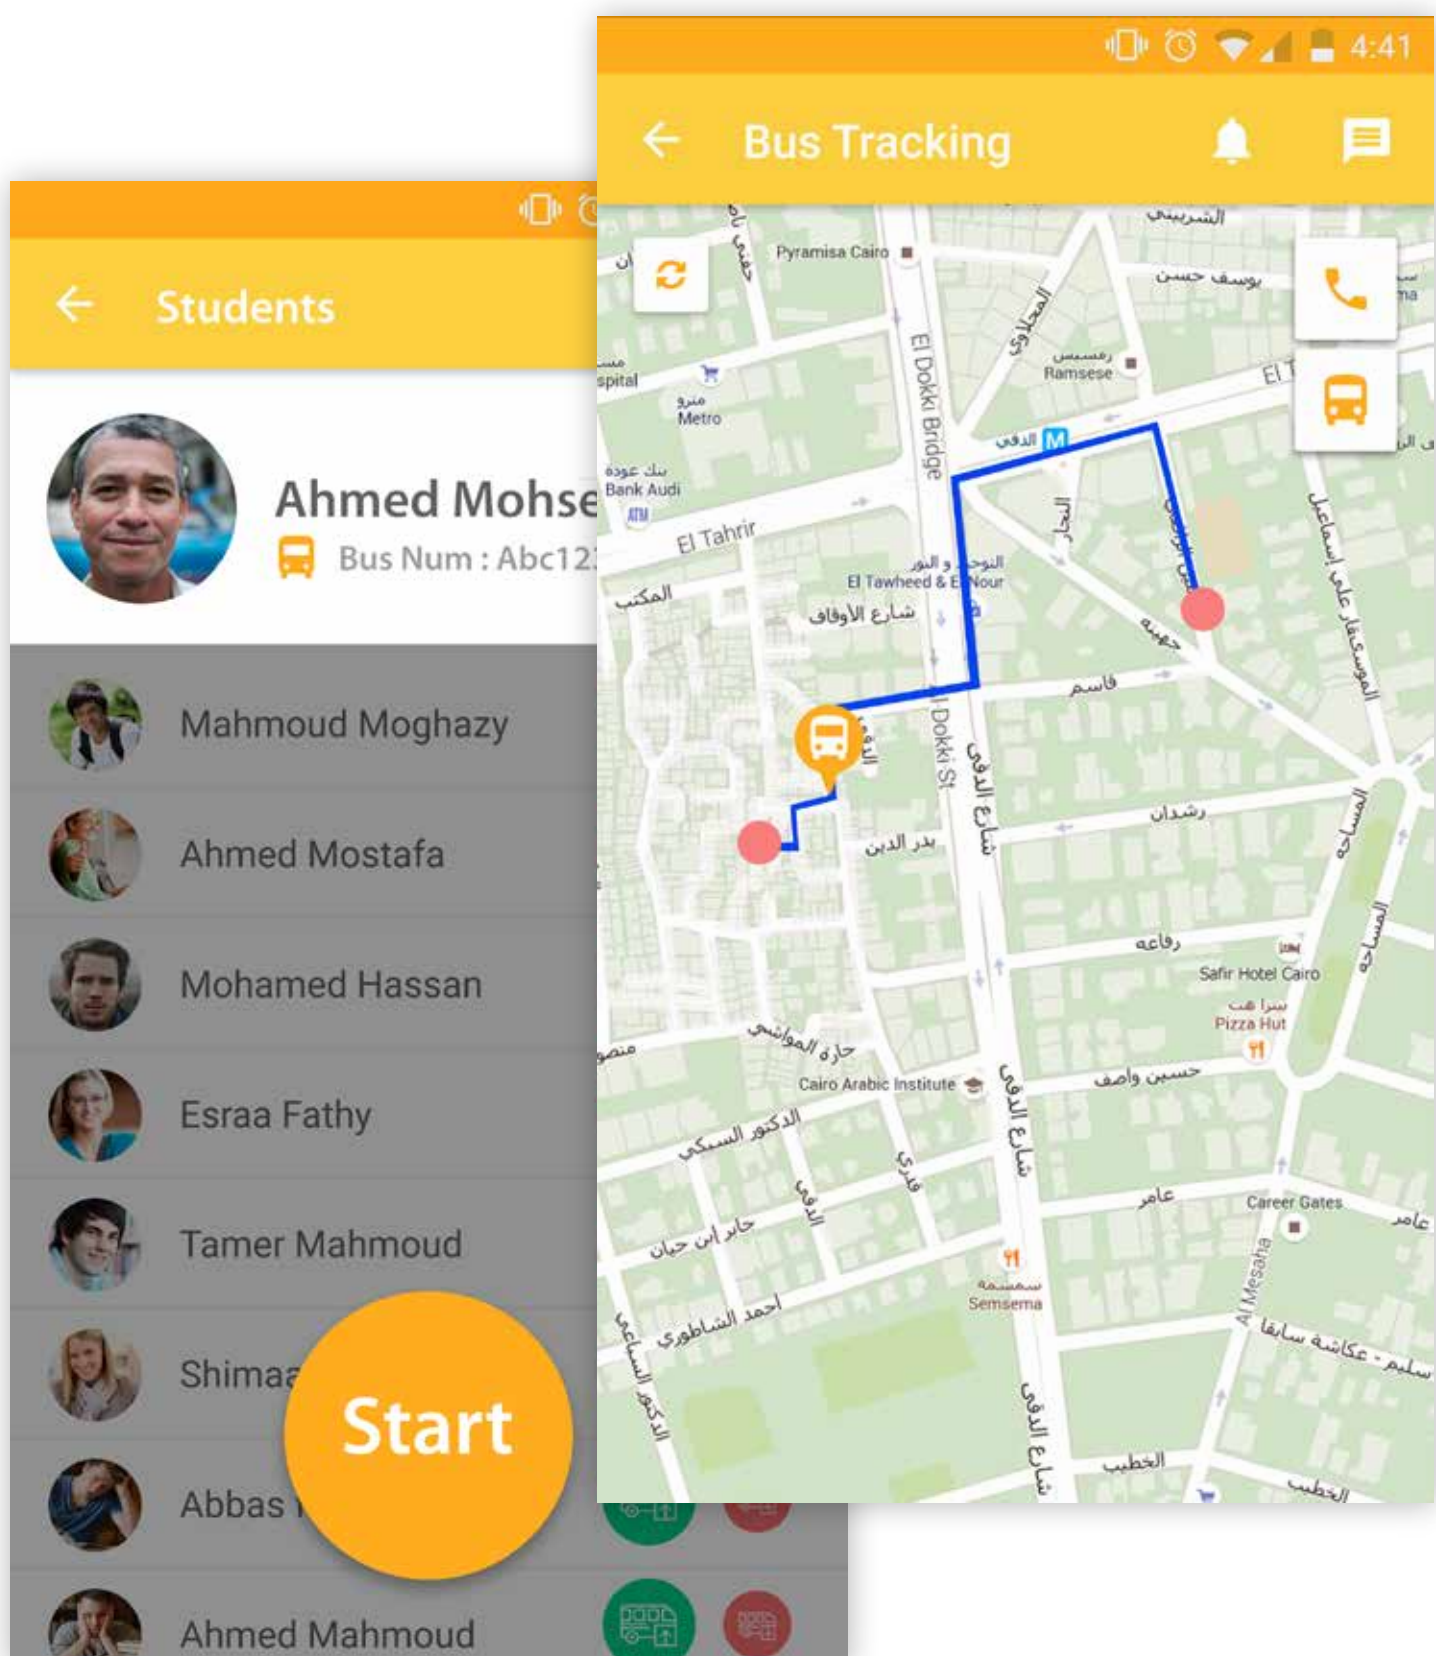

**Record
Attendance**

Bus Matrons only have to toggle on each student's name to indicate that they have been picked up or dropped off. This action in return initiates a notification to parents.

3

Automated Alerts

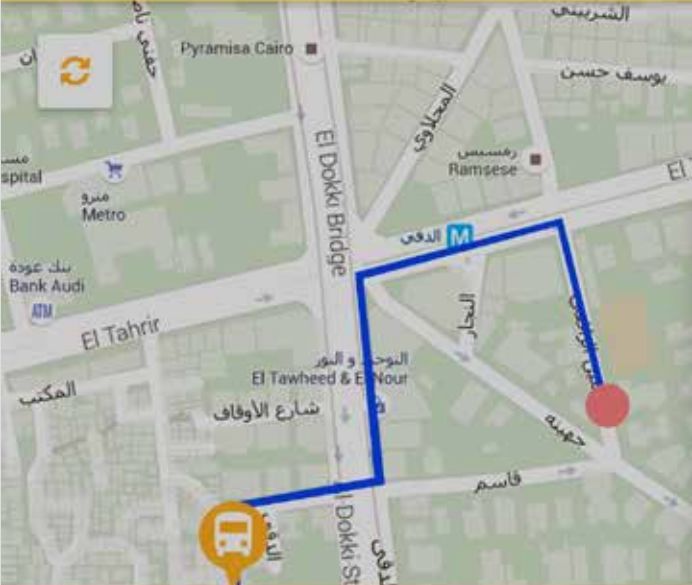

Without any interference from the Bus Matron, automatically parents will get real time notifications approximately 10 minutes before the bus picks up the child in the morning and another one before he/she is dropped off at the end of the day.

Mini ERP System

Tailored for the school's administration; all of Scholarity's software features & functions are all consolidated and easily managed through the School's dashboard (Mini ERP System).

A multitude of user friendly modules can be accessed through the dashboard:

1

- Roles & permissions can be managed by the school to give different employees specific access.

2

- Students, parents and staff information can all be inserted into the system.

3

- Generate login credentials for all users who need access to their designated apps.

4

- Feed the system with information about the school's levels, classes, grades, semesters subjects and schooling fees.

5

- Gain insights into your business by retrieving tailored statistics and reports.

6

- Input all activities and events happening at the school so they can be viewed by all parties.

7

- Chat instantly with all parties concerned or send correspondence for all official memos.

8

- Track all school buses live and oversee if any of them are overspeeding.

9

- Manage the school's website through the included user friendly content management system. and much more

A Modern Dynamic Website + Content Management System (CMS)

A user friendly content management system is incorporated into the dashboard which allows for schools to easily update and customize their modern dynamic website.

Integrated Accounting System

Promote sustainable practices, record your expenses & revenues and give parents as well as accountants a hassle free payment experience!

1

The accounting module is an advanced smart system that allows directors to enrol and identify financial items dynamically. The system can include all revenue streams such as fees, books, uniforms, trips and other miscellaneous items as well as all operating expenses such as payroll, insurance, bills and all other expenditures.

2

Adding students' tuition fees is simple with the ability to make adjustments for exceptions such as scholarships, students with study-limiting disabilities, sibling discounts and any other exceptions as per the school's discretion. Administration can also access all students' payment history.

3

Fee balance alert feature which allows the system to automatically generate notifications to parents when payment 'installments are due (via SMS or email).

4

Performance based compensation system that allows for bonuses or reductions based on employee performance.

5

Reports and financial statements that provide an easy reference guide to key statistics from the past year as well as different prospectives of how your business is doing at a specific point in time.

6

Payments are made easy, parents can view their installments and conveniently pay them through their Scholarity app. Payments are then processed automatically by the bank for approval, once approved, payments are instantly reflected as paid on the Schools accounting system.

Interactive Learning

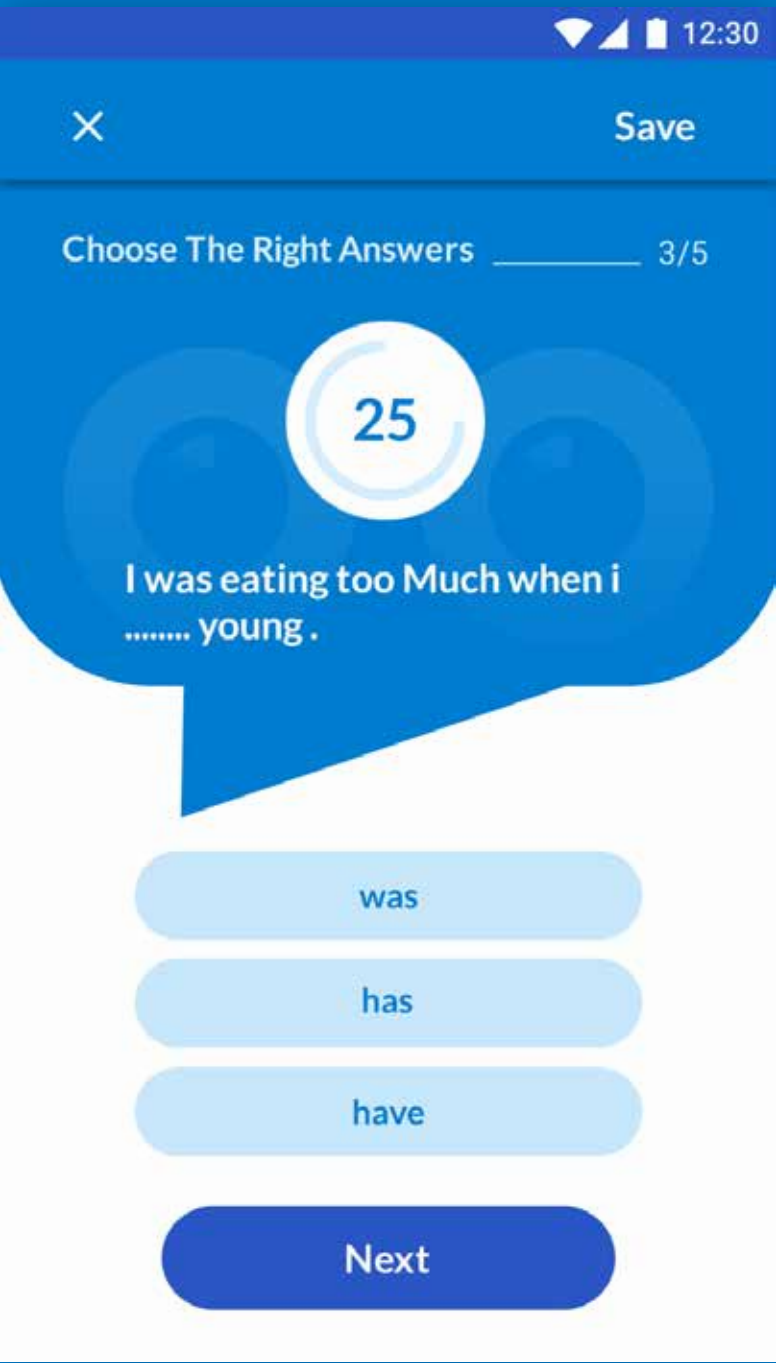

As more advances take place and students become more reliant on digital technology, interactive learning becomes more and more relevant as a means of student engagement and as a learning method in itself.

Through schoolarity teachers can generate question banks, timed quizzes and practice tests using easy formats to insert questions and their model answers. Various types of questions can be generated such as:

- True or false
- Complete
- Essay questions
- Translation
- Listening
- Rearrange
- Multiple choice questions
- Correct underlined words
- Spelling

Different timings can be assigned for each of the questions depending on the type of question and its difficulty.

Students on the other hand can easily access these questions through their app in order to measure how much knowledge they have retained. Scores are automatically populated and offered to students upon completion.
